General recommendations on training with AtletIQ

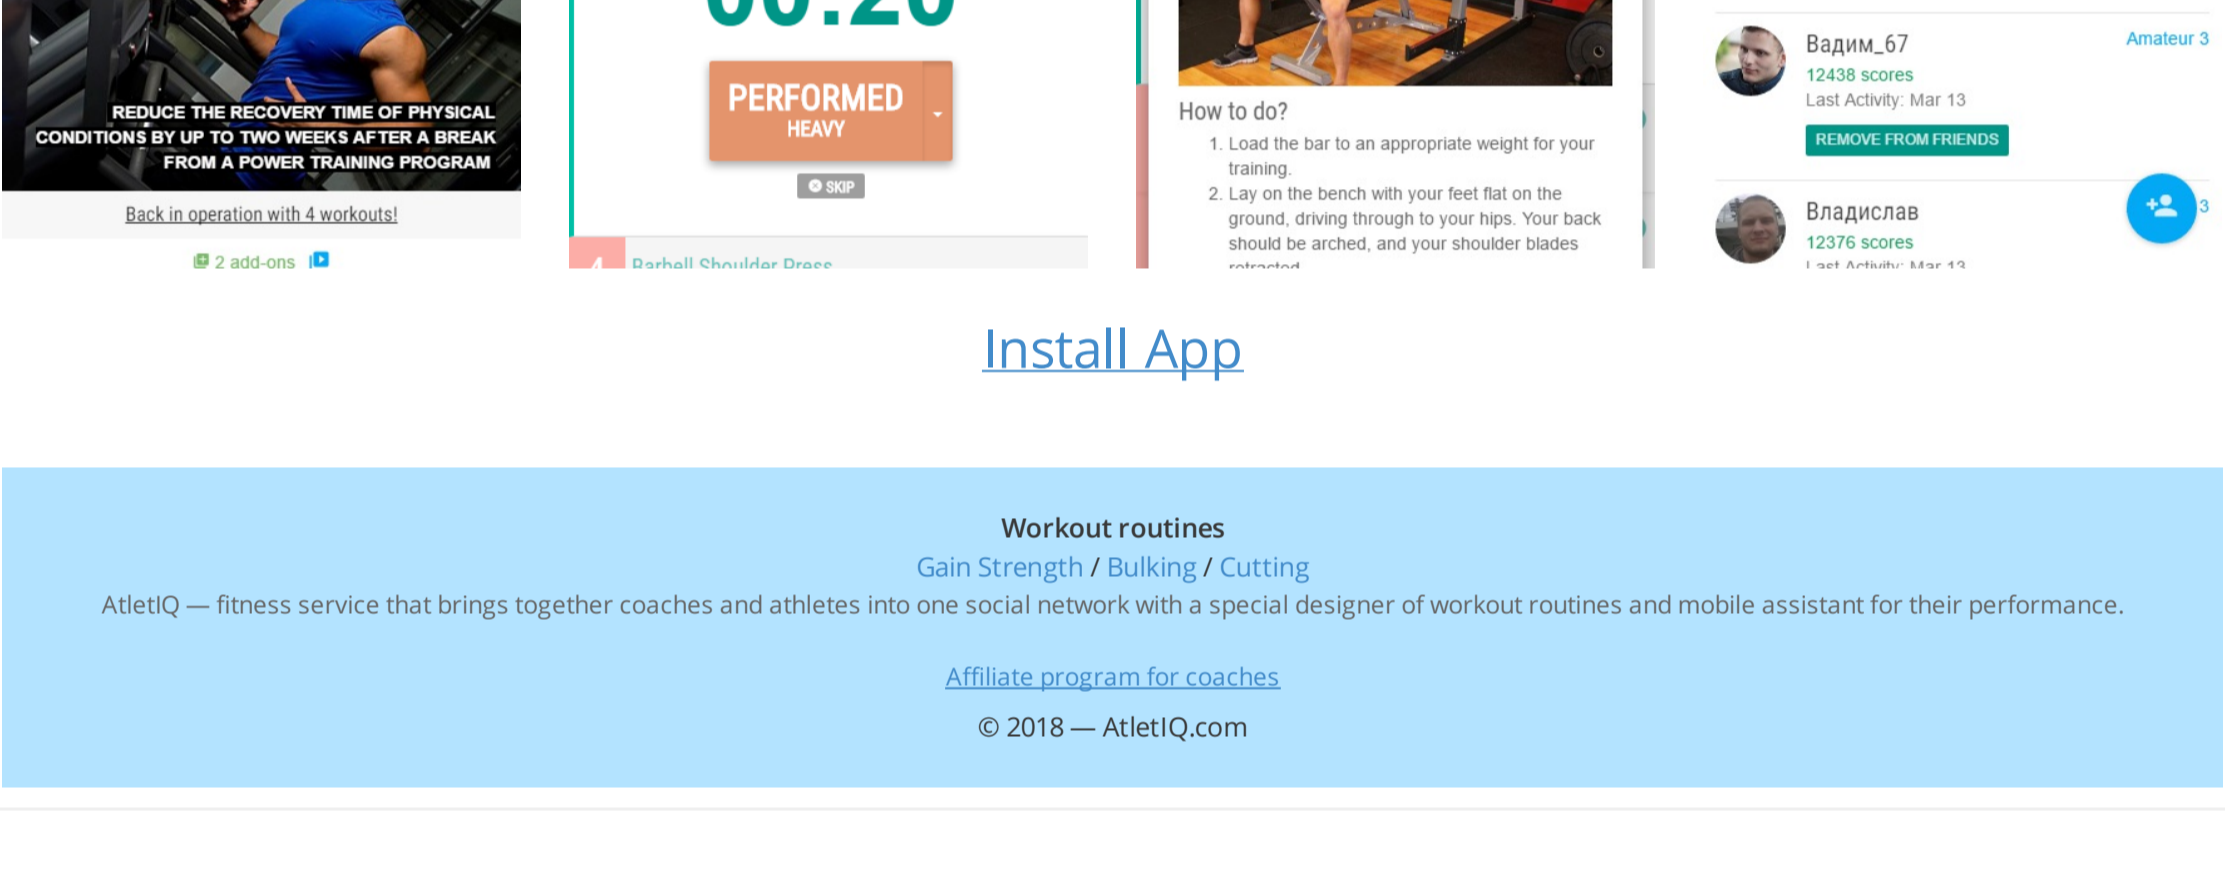

AtletIQ — a universal platform for creating training programs. All trainings are performed using a mobile application which is an interactive smart timer.

- The load in the programs is calculated relative to the maximum weight with which you can do the exercise for 1 repetition. This indicator is also calculated and adjusted automatically in the future.
- This application requires access to the Internet. There is also the opportunity to train on the special training Form, data is transferred after a workout to your personal account and are considered in the following training.
- During training, you will carry out step by step application and assess the level of load obtained after the completion of each set.
- The application will compare your score with the planned load and adjust the level of your performance in the up or down so that you will always receive a predetermined level of load according to the program.
- On training days, on which work is scheduled to failure, take care of the presence of helper
- If you go back to training after a long rest, your power rates will be recalculated in accordance with the duration of the break.
- Try to set the weights as close to the calculated considering the capabilities of your gym
- Precisely follow the instructions on the pace of the exercise, if they are specified. Otherwise, the load level will not match the the planned.

How to use mobile assistant?
